

Positive Behavioral Supports Instructional Outcomes

As a result of the training, the participants will be able to:

- Define nosocomial behavior
- Explain the difference between positive behavioral support and behavior management
- List five biomedical causes of aberrant behavior
- List five psychological/psychiatric causes of aberrant behavior
- Explain the maxim “anger communicates unmet need”
- Describe the role of bonding in behavioral supports
- List five environmental causes of aberrant behavior
- Explain why “attention seeking” is a misguided explanation for aberrant behavior
- Provide three strategies to enhance cooperation
- Demonstrate proficiency in designing and implementing Positive Behavioral Support Plans
