SUPPORTED ROUTINES Best Practice Strategies for a Fulfilling Life

This lively and informative session brings home the point that "habilitation is not a goal – it is a result." People grow, develop and become more independent as a result of participating in meaningful life activities. The session details how supports should be delivered to allow individuals with

significant cognitive, physical and/or behavioral challenges to participate in all aspects of their life. The session provides the participants with insight as to how our perceptions and expectations serve as barriers in providing support. The four supported routine outcomes (facilitating connections, maximizing independence, enhancing self-worth, and producing self-determination) are detailed and their life enhancing effects are reviewed. The maxim that "without a presence, there is no future" services as the foundation for this session.

Tom Pomeranz, Ed. D.

Dr. Tom Pomeranz is a nationally recognized authority, trainer, clinician and consultant in the field of services for persons with disabilities over the last thirty-six years. Tom has conducted thousands of seminars and programs throughout the United States and Canada. His audiences praise his ability to combine information, humor, passion and storytelling into an informative session that not only presents the information, but communicates it in a memorable fashion. Tom was the keynote speaker at the Fifth International Conference on Developmental Disabilities and Aging in Cyprus.

He is the highly acclaimed creator of Universal enhancement, which teaches strategies to promote community participation and to support people to have a quality life. Additionally, he is noted for his innovative approach to leadership and management training.

Tom has authored numerous articles in various professional publications, created a six-part staff training DVD series and *The Principles and Practices of Universal Enhancement*. This four volume series, published by High Tide Press, details with humor and compassion the autocratic and clinical restraints of supporting people with developmental disabilities and the alternative "Universal Enhancement" way.

Tom received his Bachelor and Master of Science Degrees in Special Education and a Doctorate in Mental Health Administration from Indiana University, followed by post-graduate work from the University of Notre Dame in the area of experimental psychology. He has held a variety of top-level administrative posts in community-based service organizations and three large state-operated facilities.

Tom is President and CEO of Universal LifeStiles located in Indianapolis, IN.
