

Redefining the Elements of a Quality Life

- Valued relationships
- Dignity, respect and choice
- Meaningful activities
- Full and abundant lives

Strategies that enhance the quality of our lives are no different from those that enhance the life of a person with disabilities!

What elements do you want and need for a full and satisfying life? Learn how to assist those you support to experience an enviable life.

You will enjoy Tom's deep insights and real-life anecdotes. He offers techniques for tackling some of human services' toughest issues, with the help of stories, poetry, rules of thumb, and illustrations that are full of humor and compassion.

"So relative to life in general, thought-provoking, so helpful in my own life situation—makes me want to make everyone's life better by improving my own behavior. Tom's passion is contagious and encouraging."
